Skills

Programming

Tech

Database

Education

C++, Python, HTML, CSS

Git, OpenCV, TensorFlow, Scikit-learn, T5

MySQL, XAMPP

Bachelor of Technology, Computer Science – 8.19 CGPA

Sept 2021 – Sept 2025

Bennett University – Greater Noida, UP, India.

Relevant Coursework: Data Structures & Algorithms using C++,  
Python, Artificial Intelligence and Machine Learning, Neural  
Networks, Natural Language Processing, Deep Learning, Image and  
Video Processing

Projects

Kidney Stone Detection [ YOLOv9 | OpenCV | Scikit-learn | TensorFlow |  
Roboflow ]

Jan 2024 – Jun 2024

- Leveraged the YOLOv9 model to accurately detect and localize kidney stones in medical imaging, achieving a detection accuracy of 64% by training on a manually annotated dataset using Roboflow.
- Utilized OpenCV for image preprocessing and augmentation to enhance model performance and generalizability.
- Currently preparing ↓ ) research paper detailing the methodology, results, and potential clinical implications for submission

- Created a responsive web-based sentiment analysis platform with FastAPI.

#### Certifications

- AWS Academy Machine Learning Foundations – Amazon Web Services
- Developing Applications in Python on AWS – Amazon Web Services
- Natural Language Processing with Classification and Vector Spaces – DeepLearning.AI
- Version Control – Meta

#### Achievements

- AstroChat selected for the university project showcase, ranking in the top 10 among 200 entries, and presented to industry specialists.

#### Soft Skills

Ability to communicate technical concepts with ease | Able to lead a team of people | Hardworking | Detail Oriented
